18 August 1986

MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with Samuel B. Anderson

DD/A REQUEST
FILE: 45-8

1. Sam Anderson, telephoned this date, to say that he had had an idea as he was flying home. He suggested that a mask be made of the face of Donovan's son and that this mask be used to create a new head for the Donovan statue he has created. He said that the idea had come to him after he heard one or two persons at the viewing held by the DCI say that Donovan looked a lot like his son.

2. I told Anderson that I would convey his idea to the DCI. However, I couldn't state at this time what the DCI's thinking currently is with respect to the Donovan statue.
